Agramin o.s. is a well balanced combination of essential minerals for oral administration which are essential for the proper operation of many physiological functions.

Indications:

Agramin Oral solution contains essential minerals for calves, cattle, goats, poultry, sheep and swine.

Agramin Oral solution is used for:

- Prevention or treatment of mineral deficiencies in farm animals.
- Prevention or treatment of stress (caused, for instance, by vaccination, diseases, transport, high humidity, high temperatures or extreme temperature changes).
- Improvement of feed conversion.

Side effects:

No undesirable effects are to be expected when the prescribed dosage regimen is followed.

Dosage: For oral administration through drinking water.

Cattle, calves, goats and sheep: 15 – 30 ml per animal for 7 days. (Dilute 15 ml per 1.5 ltr drinking water.)

Poultry and swine : 1 ltr per 2000 ltr drinking water for 5 days.

Warning : Do not administer directly to the animal (corrosive liquid).

After contact with eyes wash with plenty of water and seek medical advice.

Wear suitable gloves and clothing.

Withdrawal time: None

Storage: Keep closed in a cool (between 15-25 degr C) and dry place, away from sunlight and safe from children..

Packing:

12 x 1.000 ml bottles in 1 carton

FOR VETERINARY USE ONLY
