

IRONDEX 10% - injectable solution

Composition:

Each ml contains:

Iron (as iron dextran): 100 mg.

Vit B12, Cyanocobalamin: 100 µg.

Indications:

Prevention and treatment of anemia in piglets, calves and other animals.

Cyanocobalamin is used for prophylaxis and treatment of anaemia in calves piglets.

Contra-Indications:

Administration to animals with Vit E deficiency or with diarrhoea.

Administration in combination with tetracyclines because of the interaction of iron with tetracyclines

Dosage and Administration:

Administer intramuscularly (in the muscles of the hind legs) or subcutaneously.

Cattle/horses: 12 ml per 250 kg body weight.

Calves/foals: 4-8 ml in first week.

Sheep/goats/dogs: 3 ml.

Piglets Prevention: 2 ml once at 3 days of age and 2 ml at 21 days.

Sows Prevention: 5 ml 2 weeks before farrowing.

Withdrawal time: None.

Storage: Keep closed in a cool and dry place, away from sunlight and safe from children.

Packing:

4 x 12 x 100 ml in 1 carton.

FOR VETERINARY USE ONLY
